

## #358 Survival Knife Owners Manual

### PRODUCT INFORMATION

This knife has been designed primarily for rescue and survival purposes. It is constructed of the finest materials available. The stainless steel blade contains a small amount of carbon for hardness, to insure a sharp edge. The sheath is molded from Dupont rubber.

### CARE OF YOUR KNIFE

The knife and sheath should be rinsed in fresh water and dried after each use. A light oil film should be applied to the blade. The mirror-finished blade could develop staining or light rust if not cared for properly. This can be removed by rubbing with steel wool.
