

OWNER'S MANUAL SURVIVOR SIMULATOR #580

The field proven Survivor Simulator is a durable and economical training aid for rescue swimmer programs and other in-water training requirements. Constructed from 1050 denier ballistics nylon casing, closed-cell flotation, and corrosion resistant hardware. The unit is able to withstand repeated helicopter deployment/drops into water from heights of up to 50 ft. Simulator is suitable for SADPU recovery, and is equipped with MADPU lifting ring. Approximate weight: 26 lbs. Stowed dimensions: 18" L x 20½" W x 6" H

WARNING

The Survivor Simulator is intended as a training aid only. The device should be used in accordance with standard safety precautions and training procedures.

INSPECTION

Before each use inspect all webbing, fabrics, and hardware for damage, wear, and corrosion. Repair or replace as required.

MAINTENANCE

Clean the Survivor Simulator with fresh water and mild soap after exposure to salt water or salt spray. Before stowing, allow unit to air-dry in a shaded location. Protect stowed unit from exposure to direct sunlight.

WARRANTY

LSC products are warranted to the first consumer purchaser to be free from defects in material or workmanship for a period of twelve (12) months. Please contact LSC for our complete Warranty information and Policies, or visit our website.
