

# #406 Medevac IIA Break-Apart Litter

The Medevac II is a modern Stokes-type litter constructed for long life in the marine environment and is the most widely used helicopter rescue litter. The Break-Apart model occupies approximately half the stowage space of rigid litters. Screw-couplers with self-aligning pins secure the top tubes firmly together, and the lower skid tubes attach with hook and pin-type fittings permitting quick assembly. Both top tube and skid couplers are cast or machined from solid stainless steel. This coupler system is the strongest in use on any stretcher today. Included with each litter are five (5) color-coded patient restraint straps and LSC's exclusive double locking Quick Release Safety Buckles.

## **Part Numbers:**

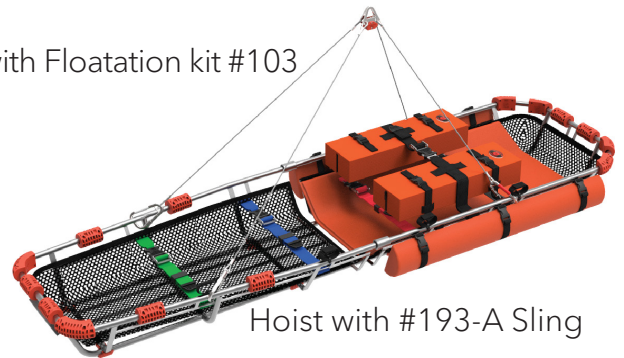

- #406: Medevac IIA Litter, 2 Piece Stainless Steel, 24" x 84"
- #406-F: Medevac IIA Litter, 2 Piece Stainless Steel, 24" x 84" with Floatation kit #103
- #406-D: Medevac IIA Litter, 2 Piece Stainless Steel, 24" x 78"
- #406-D-F: Medevac IIA Litter, 2 Piece Stainless Steel, 24" x 78" with Floatation kit #103
- #406-TI: Medevac IIA Litter, 2 Piece Titanium, 24" x 84"
- #406-TI-F: Medevac IIA Litter, 2 Piece Titanium, 24" x 84" with Floatation kit #103
- #406-D-TI: Medevac IIA Litter, 2 Piece Titanium, 24" x 78"
- #406-D-TI-F: Medevac IIA Litter, 2 Piece Titanium, 24" x 78" with Floatation kit #103

Break-Apart

Stowed

Hoist with #193-A Sling

## **Floatation:**

The Narrow Floatation Kit #103 reduces the width of a litter with installed floatation by 4". The narrow profile is accomplished with half-width, "D" shaped floatation logs and a foam back pad. Components in the floatation kit are constructed from high quality synthetic materials, and are suitable for the marine environment. When properly installed, the added floatation kit provides positive self-righting and head-up floatation characteristics. Covers for floatation components are international orange, and are available in black by special order. **NSN 4220-01-483-1934.**

## **Technical Specifications:**

### #406 Medevac IIA Break-Apart Litter

Weight:	<i>Stainless Steel Litter at 34lbs (14.5kg) 45lbs (19kg) with Floatation</i> <i>Titanium litter at 22lbs (9.97kg) 33lbs (14.96kg) with Floatation</i>
Dimensions:	<i>24" W x 7" D x 84" L (43" L stowed) or 24" W x 7" D x 78" L (40" L stowed)</i>
MIL-SPEC Litter:	<i>Exceeds 2500lb Load Test Requirement</i>
NSN:	<i>6530-01-397-0094 (Stainless #406)</i>
