

#193 Litter Hoisting Slings

Horizontal hoisting slings are designed for quick connect and disconnect to Medevac and Stokes-type litters. All components, including the 5/32" cable, are corrosion resistant stainless steel. Snap hooks are marked with color-coded reflective tape; additional tape is provided for marking the litter frame.

#193 Magnetic Attachment

#193-A

Size:

Part Number	Long Cable (A)	Short Cable (B)	Swages	Attachment Features
193-A	41" (104.14cm)	33" (83.82cm)	Single	Semi-Permanent
193-B	41" (104.14cm)	33" (83.82cm)	Single	Red/Silver Retro
193-SD	37" (93.98cm)	29" (73.66cm)	Single	Red/Silver Retro

Technical Specifications:

Hoisting Slings	
Breaking Strength:	V-Ring: 5,000lbs (2,268kg)
	Locking Snap Hook: 4,500lbs (2,041kg)
	Cable: 2,400lbs (1,089kg)
Dimensions:	Long Cables: 41" (104.14cm)
	Short Cables: 33" (83.82cm)
Material:	Major Components, Stainless Steel
Weight:	~3.0lbs (1.36kg)
Working Load Limit (WLL):	600lbs (272kg)
Load Strength:	Exceeds 2500lb Mil-Spec litter load requirement
Service Life:	Based on usage and condition; recommend replacement after 10 years in harsh environments.
