

241 Ring Buoy Line Bag

The solution for rapid deployment of a ring buoy and rescue line. Compact bag holds 90' of 3/8" hollow braid, UV resistant, yellow polypropylene rope (LSC #498) with excellent flotation characteristics. Rope attaches to ring buoy with a stainless steel snap hook. Bag is constructed from heavy-duty nylon. Stainless steel bracket (sold separately) mounts easily, and securely stows line bag for quick and convenient access.

#232 Bracket
