

358 Rescue and Survival Knife

This is the last survival knife you will ever need. The world's most basic survival tool just got better. The 358 Rescue and Survival Knife is now being made *from titanium*. This knife has a razor sharp, 4" titanium blade with blunt tip. The upper edge is serrated and features a line cutter. The handle is ABS plastic with sure-grip design and molded lanyard hole. Includes synthetic rubber belt sheath with integrated safety retainer.
