

# #404 Medevac II Rigid Litter

The Medevac II is a modern Stokes-type litter constructed for long life in the marine environment and is the most widely used helicopter rescue litter. The Medevac II series comes standard with a polished Type 304 Stainless Steel frame. The tubular components have been manufactured for greater durability and extended service life with a wall thickness 30% greater than other MIL-SPEC and commercial litters. Included with each litter are five (5) color-coded patient restraint straps and LSC's exclusive double locking Quick Release Safety Buckles.

## Part Numbers:

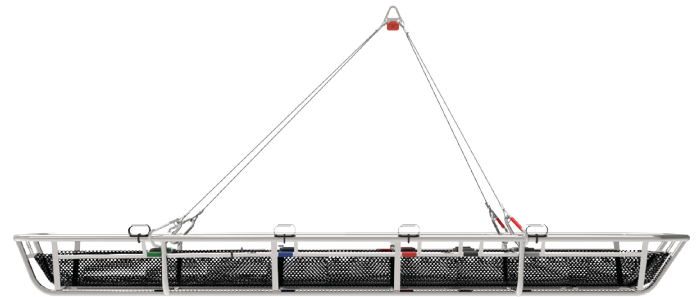

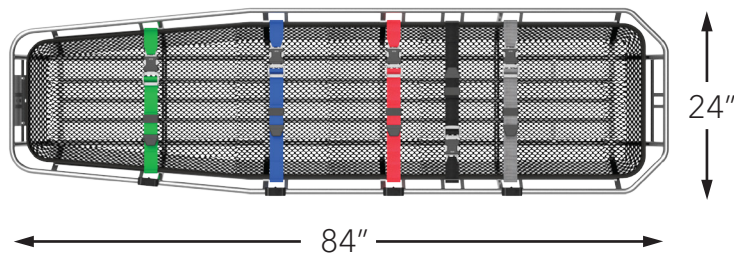

#404: Medevac II Litter, Stainless Steel, 24" x 84"

#404-F: Medevac II Litter, Stainless Steel, 30-1/2" x 84" with Flotation kit #101

#404-FN: Medevac II Litter, Stainless Steel, 27-1/2" x 84" with Narrow Flotation kit

#103 #140-SH: Shoulder Straps, optional

#439: Replacement Liner f/84", #404

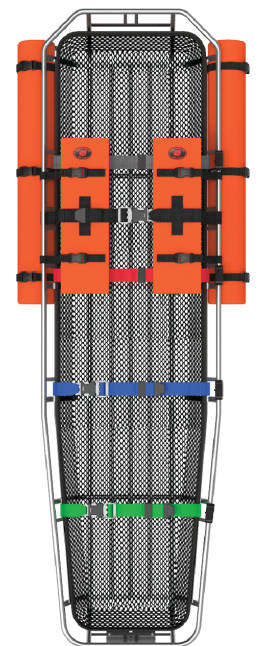

Hoist with #193-A Sling

## Flotation:

Components in the flotation kit are constructed from high quality synthetic materials, and are suitable for the marine environment. When properly installed, the added flotation kit provides positive self-righting and head-up flotation characteristics. The included retainer straps prevent fouling of the patient restraint straps during in-water rescues. Covers for flotation components are international orange, and are available in black by special order.

## Technical Specifications:

#404 Medevac II Rigid Litter	
Weight:	Stainless Steel Litter at 32lbs (14.5kg) 42lbs (19kg) with Flotation
Dimensions:	24" W x 7" D x 84" L
MIL-SPEC Litter:	Exceeds 2500lb Load Test Requirement
NSN:	6530-01-338-6094 (Stainless #404)
