In reply, refer to FAA Correspondence #7A0-18-01007 (AIR-7A1)

Mr. Adam Williams
Airworthiness Branch
National Operations and Standards Division
CASA\Aviation Group
12-14 The Circuit, Brisbane Airport QLD 4007
GPO Box 2005, Canberra ACT 2601
Australia

Dear Mr. Williams:

Lifesaving Systems Corporation (LSC), a U.S. company, requested that Atlanta ACO Branch review the design of two of their products for compliance with the performance standards of ATSO-C1003 for Helicopter External Personnel Lifting Devices- Rescue/Retrieval Strop.

The ACO has completed a review of the technical data pertaining to the design and testing of Rescue Strop models 214A and 214A-SAP against the minimum performance standards of ATSO-C1003 and the applicable sections of AS/NZS 1891.1:1995 Amdt 5. In accordance with the Implementation Procedures for Airworthiness article 3.0.6.1(d) and CASR 21.617 (1) (a), we certify that the subject articles meet the requirements of ATSO-C1003, dated 28/01/2003.

Please contact Dan McCully at (404) 474-5548 or at William.McCully@faa.gov regarding the electronic transfer of additional LSC technical data listed in attachment (4) in accordance with CASR 21.617 (1) (b).

Sincerely,

William O. Underwood

FOR Christina M. Underwood
Manager, Atlanta ACO Branch
