

Aircraft Rescue Equipment Cases

LSC #260 and #261: are heavy-duty and lightweight hang-up cases that provide storage for miscellaneous rescue equipment. Cases can be quickly moved from one aircraft to another.

NAVAIR Approved. Pockets are marked and will hold equipment as specified by NWP 3-50.1.

LSC #262 is designed for the H-60 cabin to safely stow smoke canisters and marker lights.. Durable multiple-ply construction using ballistics nylon cloth. Attaches with two quick release snap shackles at the top, and the bottom is secured by two adjustable straps with snap hooks. All hardware is stainless steel for corrosion resistance.

#262 Front Panel: Top has three marker light pockets, bottom has three MK-58 canister pockets.
Back Panel: Bottom has three MK-58 canister pockets.

NAVAIR Approved
