

Rescue Rope Reels

Intended for use where fast, tangle free deployment and retrieval is required. Tubular frame and fasteners are corrosion resistant stainless steel. Heavy duty plastic reel will hold a variety of ropes and lengths or can be ordered with no rope as replacement parts or to have a spare.

Product Variations:

Part Number	Description
264	Spare Rope Reel only
264-1	Replacement Handle Assembly for Rope Reel 264
264-2	Spare Rope Reel with Handle Assembly
265	Rope Reel with Frame NSN: 8130-01-572-8615
266	Rope Reel w/Frame and 600' of #498-F 3/8" Polypropylene Rope
267	Rope Reel w/Frame and 1000' of #498-F 3/8" Polypropylene Rope NSN: 4220-01-643-9347
268	Rope Reel w/Frame and 500' of #500-F 3/8" Max Grip Safety Line
269	Rope Reel w/Frame and 500' of #503-F 7/16" Water Rescue Rope

Rescue Rope Reels

#498-F Polypropylene Rope, 3/8" Hollow-braid, monofilament construction provides good handling characteristics, positive flotation, and can be easily spliced.

#500-F Max-Grip Safety Line, 3/8" A Hollow-braid MFP jacket in high visibility golden-yellow surrounds a multifilament polypropylene core. Line has positive flotation and excellent flexibility characteristics. Jacket is a unique braid of alternating strand diameters forming a tread-like pattern for improved hand grip in wet conditions.

#503-F Water Rescue Rope, 7/16" (Professional) Redesigned with a larger diameter for improved handling and grip. Multifilament polypropylene sheath of 16-strand kernmantle construction provides abrasion and UV protection for the multifilament polypropylene core. Sheath is high-visibility yellow with red tracers. Excellent flotation characteristics.

Technical Specifications:

Part Number	Dimensions	Weight
264	17"L x 18"W x 23"H	10lbs (4.5kg)
264-1	5"L x 2"W x 2"H	1lb (0.45kgs)
264-2	17"L x 18"W x 23"H	12lbs (5.4kg)
265	17"L x 18"W x 23"H	14.02lbs (6.4kg)
266	17"L x 18"W x 23"H	25.94lbs (13.6kg)
267	17"L x 19"W x 23"H	31.44lbs (14.3kg)
268	17"L x 18"W x 23"H	41lbs (18.6kg)
269	17"L x 18"W x 23"H	41lbs (18.6kg)
