

499-B Helicopter Rescue Basket, Compact

LSC's original compact Rescue Basket is standard equipment aboard all US Coast Guard rescue helicopters and in-service with numerous international military & civilian operators. The frame opening has been enlarged to better accommodate two adults without increasing the overall dimensions, and an integrated, yet flexible stainless steel bail retainer has been added to keep the bails from dropping after removing the hoist hook. The frame of the Basket is constructed of tubular stainless steel for low maintenance. The bail assembly folds into the basket for compact stowage. The bottom is enclosed with a plastic mesh liner. The basket provides excellent flotation performance and is self-righting with 100% reserve buoyancy. Float covers have reflective markings and are printed with safety pictorials.

The United States Army has approved the Lifesaving Systems Rescue Basket per the Airworthiness Release (AWR) for Rescue Hoist Equipment on UH/HH-60 Helicopters (AWR 980).

Retainment Bail

Basket Collapsed

Basket Ready to Hoist

Technical Specifications:

#499-B Helicopter Rescue Basket, Compact

Weight	39lbs (15.4kg)		
Dimensions	Ready for Use	44.5" L x 25" W x 41" H	
	Stowed	44.5" L x 25" W x 21" H	
Materials	Frame: 304 Stainless Steel	Bail: 17-4PH Stainless Steel	
	Plastic mesh liner, Ethafoam with 1050 Denier Nylon covers, SOLAS grade retroreflective markings		
Working Load Limit	600lbs	NSN	4240-01-250-0313
